

30 November 2009

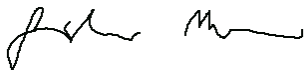

To whom it may concern

Upon request from dr Tomasz Kwiatkowski I hereby grant my permission for him to use the paper:

Kwiatkowski, T., Kryszczyńska, A., Marciniak, A., Borczyk, W., Masi, G., Galad, A., Goncalves, R., and Colas, F. 2007. Photometry of 2004 RZ164: a probable binary asteroid. 2007. *Astronomy and Astrophysics* 462, 341-344

in his habilitation. I observed 2004 RZ164 remotely with the 0.81 m Tenagra II robotic telescope in Arizona, USA. After obtaining the final lightcurve, I sent the data to dr Kwiatkowski for further analysis. That was my contribution to this paper.

Dr. Gianluca Masi, PhD

A handwritten signature in black ink, appearing to read 'Gianluca Masi', with a stylized flourish at the end.
